

INTRO

A highly developed empire in the centre of Tyria, the Human Empire's armies are made up of all sorts of infantry, cavalry, ranged units, and even some monstrous beasts. Their armies are highly varied but lack the specialisation of other factions.

Once a beacon of unity and stability, the Old Empire collapsed when its last two heirs fought each other to claim it for themselves. Now, the remaining cities must rebuild as they live in the shadow of their former glory. The new Human Empire is fragile, built on a coalition of guilds and nobility, and only time will tell whether this empire will endure.

ABOUT OPR

OPR (www.onepagerules.com) is the home of many free games which are designed to be fast to learn and easy to play.

This project was made by gamers for gamers and it can only exist thanks to the support of our awesome community.

Thank you for playing!

BACKGROUND STORY

Humans spread throughout Tyria after they developed agriculture and metalworking. A number of cities arose which fought for political dominance until eventually one city came to dominate the region through conquest and alliances. This system of alliances and vassals became the basis of the Old Empire, where the Emperor ruled from the Capital city, supported by a council of Noble Houses. This Empire brought peace and trade to the Midlands, which in turn led to innovation and expansion until most Human settlements were united under their sway.

The Empire faced its greatest struggle during the Havoc Wars. On the eve of their greatest defeat, the Wizarding Guild and allied magicians turned the tide, sacrificing their lives to seal the Havoc Gods into the Orb of Fate. A period of peace and prosperity ensued, and the Orb and the Imperial Crown became symbols of peace and Imperial authority. Yet, the Emperors would never regain their previous authority as the Empire began to rely more on local rulers, held together by careful diplomacy and the personal charisma of successive Emperors. This era came to a sudden end with the opening of the Great Rift.

When the twin heirs of the last Emperor destroyed the Orb during a violent succession dispute, it unleashed the captured Havoc Gods, and the resulting release of arcane power destroyed much of Tyria. The Capital, Imperial Family, and much of the ruling class were destroyed almost instantaneously. A number of outlying provinces broke away, while towns and cities in the core of the Empire were left without leadership. The situation threatened to devolve into total chaos.

Local Merchants and Guilds stepped in to maintain order in many towns where the local rulers had died. These towns declared themselves Free Cities. Other towns fell under the sway of the Wizarding Guild, who were still held in high regard for their intervention during the Havoc Wars. Reluctantly, the Nobles recognised some cities as under the governance of various Guilds, including the Wizarding Guild. In others, the Guilds agreed to share power with the surviving nobility.

Together, these cities would form a new senate that would continue to govern what remained of the Human Empire. It was agreed a Steward would be elected to rule the Empire until the Orb was restored and a new Emperor could be named. Stewards are chosen from Noble Candidates or those with some trace of Imperial blood, who have renounced all other titles and loyalties except those to the Empire itself.

How will you reforge the Empire?

AQFS - HUMAN EMPIRE V3.5.3

Name [Size]	Qua	Def	Equipment	Special Rules	Cost

ARMY-WIDE SPECIAL RULE

Hold the Line: Units where all models have this rule get +1 to morale test rolls.

SPECIAL RULES

Agile: Moves +1" when using Advance, and +2" when using Rush/Charge.

Bounding: When this unit is activated, you may place all models with this rule in it anywhere fully within D3+1" of their position.

Caster Group: This model counts as having Caster(1).

Coordinate: At the end of this unit's activation, another friendly unit within 12" that hasn't activated yet may be activated immediately. May not be used if this unit was activated via Coordinate.

Crack: On unmodified results of 6 to hit, those hits get AP(+2).

Extended Buff Range: If this unit is within 24" of another friendly unit with this rule that is within 6" of a friendly Hero, then that Hero may use special rules that allow it to pick friendly units within 12" (except for spells) on this unit as if it was in range.

Furious Buff: Once per activation, before attacking, pick up to 4 friendly units within 12", which gets Furious once (next time the effect would apply).

Hold the Line Boost: If all models in this unit have Hold the Line, they get +2 to morale test rolls from Hold the Line (instead of only +1).

Hold the Line Boost Buff: Once per activation, before attacking, pick up to 4 friendly units within 12", which gets Hold the Line Boost once (next time the effect would apply).

Precision Fighting Mark: Once per activation, before attacking, pick up to 4 enemy units within 18" in line of sight, which friendly units get +1 to hit rolls in melee against once (next time the effect would apply).

Precision Shooter Buff: Once per activation, before attacking, pick up to 4 friendly units within 12", which gets +1 to hit rolls when shooting once (next time the effect would apply).

Rapid Rush: This model moves +6" when using Rush actions.

Rapid Rush Buff: Once per activation, before attacking, pick up to 4 friendly units within 12", which gets Rapid Rush once (next time the effect would apply).

Repel Ambushers: Enemy units using Ambush must be set up over 12" away from this model's unit.

Surge: On unmodified results of 6 to hit, this weapon deals 1 extra hits (only the original hit counts as a 6 for special rules).

Vanguard: After this model is deployed, it may be placed anywhere fully within 9" of its position.

AURA SPECIAL RULES

Regeneration Aura: This model and up to 3 friendly units picked before the start of the game get Regeneration. If this model is killed, picked models that are deployed lose the rule.

ARMY SPELLS

Aura of Heroism (1): Pick up to two friendly units within 12", which get Hold the Line Boost once (next time the effect would apply).

Fire Ball (1): Pick one enemy unit within 12", which takes 2 hits with AP(1) and Crack. Roll as many dice as hits to see if "on rolls of 6" effects trigger.

Magic Targeting (2): Pick up to four enemy units within 18", which friendly units get +1 to hit rolls in melee against once (next time the effect would apply).

Blood Hex (2): Pick up to two enemy units within 12", which take 3 hits each.

Elemental Form (3): Pick up to six friendly units within 12", which get AP(+1) in melee once (next time the effect would apply).

Spirit Leech (3): Pick up to three enemy models within 18", which take 2 hits with AP(1) each. This effect is resolved as if the target was a unit of [1].
