Special Rules

- AP:** Targets get -X to Defense rolls when blocking hits.

Disintegrate: Ignores Regeneration, and against units where most models have Defense 2+ to Defense 3+, this weapon gets AP(+2).

Havocbound: When this model shoots at enemies over 9" away, or when it charges, its weapons get AP(+1).

Hero: Friendly units within 12" may take morale tests using the hero's Quality, as long as the hero isn't Shaken.

Impact: Roll X dice when attacking after charging, unless fatigued. For each 2+ the target takes one hit.
- Regeneration:** When a unit where all models have this rule takes wounds, roll one die for each. On a 5+ it is ignored.

Slow: Moves -2" when using Advance, and -4" when using Rush/Charge.

Swift: This model may ignore the Slow rule.

Swift Aura: This model and up to 3 friendly units picked before the start of the game get Swift. If this model is killed, picked models that are deployed lose the rule.

Tough: This model only rolls to check wound effects once it has taken at least X wounds, and is only Knocked Out on rolls of 5+X or more.

Campaign Traits

- Agile:** Moves +1" on advance and +2" on rush and charge.
